

Platte Valley Women's Healthcare, PC is pleased to offer all contraceptive options for our patients. Insurance coverage varies by plan. It is the patient's responsibility to find out if their preferred birth control method will be covered by their health insurance plan.

## Most Women With Insurance Can Get Birth Control at No Cost

Paragard, Nexplanon, Liletta, Mirena, Kyleena, and Skyla are fully covered under most insurance plans—this may mean no co-pay, deductible or out-of-pocket costs.

Check with your insurance provider to confirm coverage related to your individual plan. Fees for the Contraceptive placement procedure may apply.

    2. removal: **11982**

8. If written verification cannot be provided, write down the name of the person you spoke with and a reference number if available. Call and tell Platte Valley Women’s Healthcare what you’ve learned about your coverage, phone 308-534-0090.
9. Make an appointment with your healthcare provider to have your contraceptive inserted.

If your medical insurance says that your contraceptive is not covered as a medical benefit, then it may be covered as a pharmacy benefit.
